Careers at Oracle!

For over three decades, Oracle has been the center of innovation for business software—birthplace of the first commercially available relational database, the first suite of internet-based applications, and the next-generation enterprise-computing platform, Oracle Fusion. Today, Oracle provides the world's most complete, open, and integrated business software and hardware systems, with more than 370,000 customers—including 100 of the Fortune 100—representing a variety of sizes and industries in more than 145 countries around the globe. And Oracle's 104,500 global employees—including 30,000 developers working full-time on Oracle products—are critical to that success.

Oracle recruiters are always searching for brilliant employees with an entrepreneurial spirit, looking for a work culture where innovation is the goal, hard work is expected, and creativity is rewarded. Oracle employees enjoy competitive salaries, excellent health benefits, and a network of like-minded co-workers that drive innovation across the entire technology industry.
